ASX Announcement WORLEYPARSONS LIMITED (ASX:WOR)

WorleyParsons Awarded Engineering & Procurement Contract for Christina Lake Phase 2B In Situ Oil Sands Plant from MEG Energy Corp.

WorleyParsons is pleased to announce that it has signed a contract with MEG Energy Corp. ("MEG Energy") relating to the Christina Lake Phase 2B in situ oil sands plant. WorleyParsons' scope includes detailed engineering and procurement for the central processing facility for this 35,000 barrels per day steam assisted gravity drainage ("SAGD") project. The facility will support expanded production levels at MEG Energy's Christina Lake regional project, which is located in northern Alberta, southeast of the city of Fort McMurray.

Work has commenced and is being executed at WorleyParsons' office in Calgary, Alberta, Canada. The contract value is estimated to be \$65million Canadian dollars and the work will be completed in late 2011.

MEG Energy is a private corporation based in Calgary, Alberta, focused solely on oil sands development in the southern Athabasca oil sands region of Alberta, Canada.

"This is another example of our ability to establish relationships that create lasting value for our customers" says Larry Benke, Managing Director of WorleyParsons Canada. "We have been with MEG Energy at Christina Lake since the development of their initial production test facility and we look forward to working with them on this latest phase of their Christina Lake development."
